Toyota-derived technology
The JM491Q-ME engine uses Toyota-derived technology for durability under heavy loads and high temperatures. It tolerates varying fuel quality with a massive vehicle population.

2,000,000

Reliable quality, trusted by customers
Proven manufacturing and strict quality control deliver dependable, durable vehicles with high uptime, earning the trust of 2 million users.

Agile steering for easier city driving
The cab-over design enables a smaller turning radius for greater agility on narrow roads, streets and urban lanes.

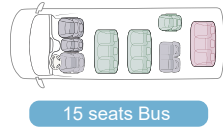

Spacious seating for 15
The 15 seating layout combines group transport capacity with spacious, comfortable seating for commuting, shuttle services and other passenger needs.

Classic Toyota exterior design

The clean, boxy body carries forward Toyota's classic styling for a highly recognizable appearance.

Enhanced safety, comprehensive protection

Additional front-end collision structure further improves the vehicle's protection in frontal impacts.

Proven power, reliable and easy to maintain

The JM491Q-ME petrol engine uses Toyota-derived technology, and the diesel engine uses Isuzu 4JB1-derived technology. Designed for heavy loading, complex road conditions, and high-temperature environments, they ensure convenient maintenance and serviceability.

Advanced manufacturing, leading quality

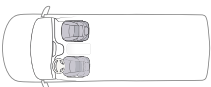

Production equipment from international brands and proven manufacturing processes build on Jinbei's more than 30 years of experience with Toyota technology and quality management.

Trusted battery, reassuring range

A 53.58 kWh CATL battery provides a range of up to 300 km for daily commuting and urban operations.

Renowned motor, ample power

A Prestolite motor delivers maximum power of 100 kW and maximum torque of 300 N·m, with a top speed of 100 km/h, to meet daily operating and passenger transport needs.

Spacious comfort for 14

An interior height of 1.63 m and width of 1.53 m, together with a 14-seat layout, provide ample room for comfortable group travel.

Practical features for easier parking

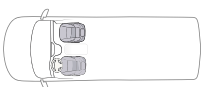

A 7-inch center display, reversing camera and parking sensors make daily driving and parking more convenient.
