JINBEI HAISE KING

5255mm
LENGTH

1825mm
WIDTH

1980/2190mm
HEIGHT

3430mm
WHEELBASE

A broad front with business presence

A large trapezoidal grille with a parametric mesh pattern, chrome trim and slim lights creates a visually broader, balanced front and a composed, confident appearance.

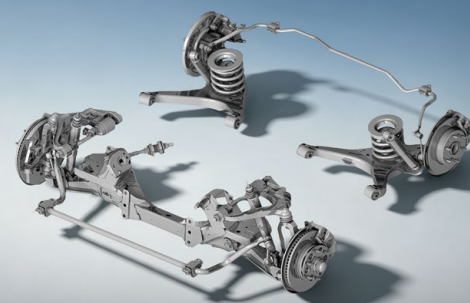

Long wheelbase, spacious layout

An extra-long 3,430 mm wheelbase provides a roomy interior, while the optimized seating layout makes better use of the space.

Large HD display, intuitive operation

A 14.6-inch HD display integrates a reversing camera and entertainment functions, with intuitive controls that improve daily driving.

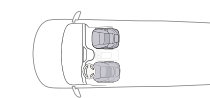

Independent suspension for a smoother ride

Four independent suspension, featuring front double wishbones and rear independent suspension with coil springs.

WHEELBASE

Distinctive design, prominent tail lights

The layered, organ-pipe-style front grille creates a distinctive, high-tech appearance. Large matrix-style tail lights improve visibility while combining style with driving safety.

Floating display, intuitive control

A 14.6-inch floating infotainment display integrates an HD reversing camera, Bluetooth music and air-conditioning controls for more intuitive operation.

Tier-1 battery, efficient charging

Powered by a 53.58 kWh CATL battery, delivering a range of up to 330 km. It supports both AC and DC charging, from 30% to 80% in just 45 minutes.

Multiple layers of safety protection

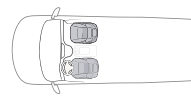

Built with a cage body structure and integrated cross-car beam (CCB), paired with a collapsible steering column, dual front airbags, and ABS with EBD, to comprehensively enhance occupant safety.

WHEELBASE

Low costs for long-term savings

The CNG fuel system integrates key components such as an injection rail and dedicated spark plugs, delivering exceptionally low operating costs.

Dual fuel for greater range assurance

The dual-fuel system switches seamlessly between petrol and CNG. A 160 L gas cylinder and a 15 L petrol tank provide a maximum range of 425 km.

CNG power, effortless climbing

Powered by a purpose-built 2.0L CNG engine delivering 92 kW and 175 N·m of torque, striking the perfect balance between daily efficiency and robust heavy-load climbing.

Reinforced cylinder protection

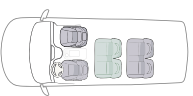

An integrated frame mounting enhances the vehicle's torsional rigidity, while matrix-style protective armour guards the gas cylinders against scrapes and impacts.
